SEMSWA WATER ACTIVITY ENTERPRISE

RESOLUTION 11-33

Amendment of Resolution No. 5, Series of 2006—Adoption of Level of Service and Fix Rates and
Rate Structure

WHEREAS, the Board adopted Resolution No. 5, Series of 2006, adopting a level of service and fixing rates and rate structure; and

WHEREAS, in order to more accurately calculate SEMSWA's annual fee for each parcel, it is desirable to eliminate rounding in the fee calculation.

NOW, THEREFORE, BE IT RESOLVED THAT the following section of paragraph 2 of Resolution No. 5, Series of 2006 be deleted:

The impervious area calculated for each parcel upon which a single family residential (detached) structure is located will be rounded to the nearest 100 square feet.

BE IT FURTHER RESOLVED THAT the following section of paragraph 3 of Resolution No. 5, Series of 2006 be modified as follows:

Rate shall be determined using the following process: 1) determine impervious area on parcel; 2) determine total area of parcel; 3) determine impervious percent of parcel (equal to the impervious area divided by the total area); 4) find impervious percent range in the table and the monthly rate per square foot per month for range; 5) multiply the impervious area times the rate from the table to determine the monthly fee; and 6) multiply the monthly rate by twelve (12) to determine the annual fee.
