RESOLUTION 14-04

Authorization for Funding the Rehabilitation of the Arapahoe Road Culvert at Goldsmith Gulch

WHEREAS, the field inspection of the existing culvert under Arapahoe Road at Goldsmith Gulch has indicated that the 83" x 57" corrugated metal pipe at this location is severely deteriorated; and

WHEREAS, continued deterioration of this pipe and failure of the overlying pavement would have a significant adverse impact on the safety and welfare of the general public; and

WHEREAS, SEMSWA's staff has determined that the most cost effective approach to correcting this deficient culvert is to rehabilitate it with the installation of a thin walled structural lining system (Project); and

WHEREAS, SEMSWA staff has completed the rehabilitation design and the bidding process for the Project and the lowest responsible bidder has been selected; and

WHEREAS, the selected bid for the construction of the Project is \$119,250 submitted by Inland Pipe Rehabilitation, LLC; and

WHEREAS, it is typical to budget the construction bid amount plus an additional ten (10) percent to cover contingencies that may be encountered during construction; and

WHEREAS, the total construction cost of the Project; including a ten (10) percent contingency and miscellaneous costs is \$11,925; and

WHEREAS, SEMSWA had adopted a budget for calendar year 2014 subsequent to public hearing, which includes funds for construction of the Project.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Executive Director is authorized to enter into a contract in the amount of \$119,250 with Inland Pipe Rehabilitation, LLC on behalf of SEMSWA for the construction of the Project.

2. The funding for the construction of the Project is limited to \$131,175 without prior approval of the Board.
