Representative Projects

Arapahoe County Projects

Century Link Service Center

- 8.7 acre site
- Dove Valley Business Center
- New building, parking areas and storage yard
- Regional Ponds W-4 / W-6 will provide detention and water quality
- On site swales provide water quality enhancement
- Status: GESC Plans approved, CDs under final review

Arapahoe County Projects

Centennial Airport – Regional Ponds C3 and C4

- 11 acre site
- Airport runway shoulder paving creates requirement for additional detention and water quality capacity
- Airport is upgrading existing Ponds C3 and C4 (being combined and enlarged)
- Upgrade in volume (to 32 ac-ft) and to current detention and WQ standards as required in the Cottonwood Creek Master Plan
- Status: Final review, construction anticipated Spring 2012

City of Centennial Projects

J.D. Carpenter Fueling Station

- 1.6 acre site
- Service station /convenience store
- Detention and water quality provided by a Porous Landscape Detention (PLD) facility
- Status: Final review

City of Centennial Projects

S. Peoria and E. Peakview Roundabout

- Approx. 3 acre project
- Intersection replacement with roundabout will decrease traffic delays at Peoria
- Replaces pavement that is in poor condition
- Will result in a decrease in impervious area adding landscape and vegetation
- Water quality enhancement using grass swales
- Status: Final review
