RESOLUTION 13-39

Authorization for the Funding of the 2013 Cured in Place Pipe Installation Program

WHEREAS, field inspections of the existing corrugated metal pipe culverts under roadway pavements at 16 separate locations in the SEMSWA service area have indicated that the pipes at these locations have severely deteriorated; and

WHEREAS, continued deterioration of the pipes and failure of the overlying pavements would have a significant adverse impact on the safety and welfare of the general public; and

WHEREAS, SEMSWA's staff has determined that the most cost effective approach to correcting these deficient culverts is to rehabilitate them using the cured in place pipe (CIPP) process;

WHEREAS, SEMSWA staff has completed the rehabilitation design and the bidding process for the 2013 Cured in Place Pipe Installation Program (Project), which provides for the installation of CIPP in the existing metal pipes at the 16 locations identified on Exhibit "A" attached hereto and incorporated herein by reference, and the lowest responsible bidder has been selected; and

WHEREAS, the selected bid for the construction of the Project is \$534,747 submitted by Insituform Technologies, LLC; and

WHEREAS, it is typical to budget the construction bid amount plus an additional ten (10) percent to cover contingencies that may be encountered during construction; and

WHEREAS, the total construction cost of the Project; including a ten (10) percent contingency and miscellaneous costs is \$588,222; and

WHEREAS, SEMSWA had adopted a budget for calendar year 2013 subsequent to public hearing, which includes funds for construction of the Project.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Executive Director is authorized to enter into a contract in the amount of \$534,747 with Insituform Technologies, LLC on behalf of SEMSWA for the construction of the Project.
2. The funding for the construction of the Project is limited to \$588,222 without prior approval of the Board.
