RESOLUTION NO. 08-15

(Authorization for Engineering Services for a Conceptual Design
of a Flood Solution for Panama Drive East of Broadway)

WHEREAS, Panama Drive east of Broadway experiences flooding during severe storms;
and

WHEREAS, an underground storm sewer system does not exist to drain Panama Drive
and the existing overland drainage system drains into the Highline Canal owned by the Denver
Water Board north of Panama Drive; and

WHEREAS, the Denver Water Board policy does allow improved drainage systems to
increase drainage into the Highline Canal and alternative means to drain the area need to be
evaluated; and

WHEREAS, an existing stormwater detention pond is located approximately 2,000 feet
north of Panama Drive, across the Highline Canal; and

WHEREAS, an evaluation of the flooding problem and alternative solutions, and a
conceptual design are recommended to determine the most efficient solution and likely project
costs; and

WHEREAS, \$30,000 is identified in the proposed 5-Year CIP for the evaluation of
flooding problems, evaluation of alternative solutions, and conceptual design of the most feasible
Panama Drive Storm Sewer Outfall project; and

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Executive Director is authorized to execute an agreement with a
consultant for the evaluation of flooding problems, evaluation of alternative
solutions, and a conceptual design of a solution to the flooding of Panama
Drive east of Broadway.
2. The funding for the Panama Drive Storm Sewer Outfall project is \$30,000
without prior approval of the Board.
