RESOLUTION NO. 08-17

(Authorization to Participate in the Piney Creek at Caley Drive Construction Project
and Design of Piney Creek Stabilization Measures from Tower to Liverpool)

WHEREAS, the existing Piney Creek crossing at Caley Drive does not meet criteria, is inadequate, and needs to be replaced; and

WHEREAS, replacement of the crossing is identified in the planning study entitled “Piney Creek Stream Stabilization and Major Crossing Priority Planning, Parker Road to Liverpool Street,” dated May 2000; and

WHEREAS, final design was initiated by the Urban Drainage and Flood Control District (UDFCD) in 2007 and funded by \$50,000 from the City of Centennial and \$50,000 from the UDFCD; and

WHEREAS, SEMSWA as of January 1, 2007 assumed stormwater management responsibility within the City of Centennial and is now responsible for the continued implementation of the Piney Creek at Caley Drive project; and

WHEREAS, recent meetings with homeowners have resolved an issue regarding a proposed wooden bridge and project sponsors are now in a position to move forward and complete final design and construct the crossing improvements; and

WHEREAS, project costs for construction and right-of-way acquisitions are estimated to be \$1,425,000; and

WHEREAS, an additional amount of \$600,000 has been committed by the UDFCD in 2008 for acquisition of right-of-way and construction of the designed improvements, leaving an additional \$825,000 needed to proceed with right-of-way and construction of the project; and

WHEREAS, \$825,000 is included in 2008 in the proposed Capital Improvement Program (CIP) for the Piney Creek at Caley Drive project; and

WHEREAS, the 2008 CIP also includes \$50,000 for design of stream stabilization improvements along Piney Creek upstream and downstream of the Caley Drive crossing extending from Liverpool to Tower; and

WHEREAS, the Urban Drainage and Flood Control District will also contribute \$50,000 for design of stream stabilization improvements along Piney Creek upstream and downstream of the Caley Drive crossing; and

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Executive Director is authorized to enter into an agreement with the UDFCD for the construction of the Piney Creek at Caley Drive project; to negotiate for the right-of-way needed for the Caley Drive project; and for design of stream stabilization improvements along Piney Creek upstream and downstream of the Caley Drive crossing extending from Tower to Liverpool.
2. A financial contribution is authorized from SEMSWA to the Piney Creek at Caley Drive project in the amount of \$875,000.
