RE: South East Metro Storm Water Authority

Dear Heather:

Following up on our telephone conversation of Tuesday, September 26, 2006, this will confirm that CIRSA has declined to provide a coverage quote to the South East Metro Storm Water Authority. Upon further consideration of the application request, CIRSA was concerned that, although the Authority is made up of a large number of participating local governments, only one – the City of Centennial – is a CIRSA member. For a non-municipal public entity seeking to join CIRSA, we desire a higher level of participation in and/or control over the entity by one or more CIRSA member municipalities.

We would however like to refer you to our sister pool affiliated with the Special District Association. Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Michelle Bechamps".
