

Addendum No. 1 to 2007 Contract

## 2008 HOUSEHOLD HAZARDOUS WASTE COLLECTION SERVICES

### Background

- ❖ MS4 Stormwater Quality Permit Program 3, Illicit Discharge Detection and Elimination
- ❖ Program 3 Measurable Goal is to provide the opportunity for the public to recycle or dispose of routine household hazardous waste (i.e. paint, used oils, fluorescent tubes, Roundup, etc) in the correct manner rather than disposed of over the fence, down the gutter, or to a landfill that will eventually leach to groundwater or surface water supplies
- ❖ SEMSWA staff have determined that a curbside collection service to recycle and properly dispose of wastes is the safest and most efficient process to meet the goal, and can be budgeted for each year
- ❖ Curbside, Inc. has provided these services for Arapahoe County since 1999 (original contract with Sheriff's office), and for SEMSWA since 2007
- ❖ Curbside, Inc. collects the \$20.00 co-pay directly from each homeowner that participates. SEMSWA picks up the remaining \$89.00 of the curbside collection fee.
- ❖ Curbside, Inc. provides the supplies, makes an appointment, and, upon phone notification, picks up the household hazardous waste at the curb of the homeowner.

## Contract Due Diligence

- ❖ Annually, phone calls have been made to other front range MS4s to determine if there are any additional service providers and their evaluation of those services
- ❖ There is one other provider, besides Curbside, Inc., that is doing curbside collections in the metro area
- ❖ At this time, because the costs have been consistent over time (2007 costs remain in effect for 2008 services) and the service provider can meet our customer service goals of timely collection, easy-to understand directions, and experienced phone staff, we are not anticipating a change in vendors; however, when any conditions warrant, including, but not limited to, unwarranted cost increases, service interruption without explanation, and/or consistent customer complaints, we will explore an RFP for these services among the vendors that can provide a similar service

## 2008 Contract

- ❖ Contract term: January 1, 2008 through December 31, 2008
- ❖ No increase in costs for services (2007 prices remain in effect for 2008)
- ❖ Ability to add supplemental services, if SEMSWA desires: E-wastes, sharps, and tire collection
- ❖ 2008 budget is relatively the same as 2007 budget:
  - 2007: \$35,000 budgeted (\$3,888/month for period April - December)
  - 2008: \$45,000 budgeted (\$3,750/month for period January - December)

## Recommendation

❖ Approve Resolution No. XX to authorize Executive Director to execute 2008 contract with Curbside, Inc. via Addendum No.1 to the 2007 Contract in the amount of \$45,000
