

**SOUTHEAST METRO STORMWATER AUTHORITY  
BOARD OF DIRECTORS  
AGENDA ITEM SUMMARY**

**NAME OF ITEM:**

Update and discussion regarding stormwater fees billed and collected.

**FROM:**

Dave Agee

**DATE:**

July 25, 2007

**EXECUTIVE SUMMARY:**

The primary purpose of this Agenda Item is to provide the Board with information regarding stormwater fees billed and collected from Arapahoe County as well as Douglas County customers. As noted in the attached materials, 90% of the fees billed to Arapahoe County customers had been collected as of June 26, while 45% of fees billed to Douglas County customers had been collected as of July 18. Although the results for Arapahoe County customers at first was disappointing, further research and analysis has revealed that a significant portion of the delinquent amount has been collected or will be collected.

As of June 26, \$762,104.73 of fees were unpaid. However, \$294,199.46 of these fees are due from the Arapahoe County Airport Authority. Even though the amount of these fees may be reduced if the consolidation of various parcels is approved, the Airport is not contesting their responsibility to pay the fees and collection is expected. In addition, \$107,367.54 of the delinquent fees are due from the Cherry Creek School District. Subsequent to the County Treasurer's final due date of June 15, these fees were collected. After deducting the amounts from the Airport and the School District, the amount of unpaid fees is reduced to \$360,537.73, and the percentage of fees collected, or expected to be collected, is 95%.

As previously thought, governmental entities, non-profit organizations, and homeowners associations appear to comprise a significant portion of unpaid fees. Of the \$360,537.73 amount discussed above, \$126,559.19, or about one-third is from governments, non-profits, and HOAs. Schedules are attached showing the detail of these entities.

## Budgetary Impact

According to the budget, we are expecting gross fees of \$7,660,820 in 2007, delinquencies of \$153,216, reductions due to adjustments, etc. of \$76,608, and net fees of \$7,430,996. One item of note is that collections of Douglas County fees were not included in the budget; therefore, every dollar collected from these customers enhances the bottom line.

As of July 18, net fees collected from all customers is \$7,006,710. If the fees from the Airport and the Cherry Creek School District are added, the amount is \$7,408,277—within \$22,719 of the budgeted amount.

## **ITEMS FOR DISCUSSION**

Staff would like to discuss various approaches to collecting delinquent fees with the Board, including the charging of interest on past-due amounts. The simplest and most logical approach is to utilize the County Treasurer's process for collected unpaid taxes and assessments. This should work well for business entities and individuals that also owe property taxes. However, governments, non-profits, and HOAs present a challenge. We think many of these entities saw the bill, thought it was a property tax bill, and ignored it. Even though the fees are being billed by the Treasurer as delinquent, many entities may continue to ignore the demands for payment.

Customer contact and education are likely to result in some success in collecting past-due amounts. Liens and other legal action may also prove fruitful. While the billing of interest on past-due amounts is justified from a legal and business viewpoint, the calculation and tracking of such interest may not be worth it, especially for smaller amounts.

We are interested in hearing Board member's views on delinquencies, interest on past-due amounts, and methods of collecting them. Staff, with the assistance of legal counsel, plans to develop policies and procedures regarding these matters for Board consideration in the near future.
